Product Description

Kress 60 V 21" Brushless Push Lawnmower - KG758

Kress battery-powered mowers offer the power of a gas mower without the complexity. No starting issues, no oil concerns and never make a fuel run again. With Torq-Logic, there's no adjusting the power needed; the mower automatically adjusts power based on the lawn height & density being mowed. Incredible performance with near-silent operation.

- Kress-built brushless motors provide more power, longer runtime, and extended lifespan over standard brushed motors.
- Adjust your cutting height rapidly from one location.
- Quickly switch from mulching or side discharge to bagging at the flip of a lever, no plug is required.
- Folds down flat to the mower allowing for "vertical" storage requiring less space and ease of transport in most automobiles.
- The heavy-duty deck allows for mulching, bagging & side discharge.
