Product Description

Scag RC Low-Profile Remote Control Mower - SRC-52D-27CX-EFI

Built with an ultra-low stature, the new Scag® RC Low-Profile Mower was born to smoothly traverse around and under solar field panels. This remote-controlled machine removes the operator from low-profile situations and other challenging areas. The machine's all-electric drive system, along with a true hybrid power system, ensures unmatched performance and productivity.
