Product Description

Scag RC Extreme Slope Remote Control Mower

Hit the slopes with the all new Scag® RC Extreme Slope™ Mower. This remote-controlled true full hybrid powered machine removes the operator from unsafe situations on extreme slopes and other challenging areas. Machine comes fully equipped with standard packed features that ensures unmatched performance and productivity. No other machine in its class can come close, and has the competition running wild!

The Scag RC Extreme Mower is the product of a years-long collaboration between Scag Power Equipment and its sister company, Metalcraft Automation Group, a provider of game-changing automation solutions for a variety of industries.
